

AWS Hackdays 2019: Let's Hack for Good!

Dear Innovators,

AWS Hackdays "Hack for Good" is now OPEN for application!

After the success of the 2018 edition, AWS Hackdays is back in 2019 with an exciting new challenge! [The AWS Hackdays: "Hack for Good"](#) is a regional hackathon made for builders who are eager to create a positive impact on local communities with the power of technology.

This year, you have the opportunity to accelerate South-East Asia digitalization by bringing new solutions around the four topics - **HealthTech**, **AgriTech**, **Smart City** and **FinTech**.

Using Amazon Web Services, you now have the chance to showcase a product demonstrating your skills in either Artificial Intelligence/Machine Learning, IoT, Data Analytics or Modern Applications.

Four stages of AWS Hackdays 2019:

- 1. Online Hackathon (January 23 – your country deadline):**
 - a. Create a team or join a team online (2 to 4 people)
 - b. Submit your project in the format of a PowerPoint and/or a video
- 2. Offline Demo Day (please refer to the platform for the dates of the Demo Day in your country)**
 - a. The top 5 teams from each country will be invited to pitch their projects at the national Demo Day
 - b. The winning team will be flown to Singapore to attend the Final Hackathon
- 3. Final Hackathon - Offline Hackathon (April 10)**
 - a. The top 3 teams of the Final Hackathon will win attractive prizes
 - b. The Final Hackathon champions will be rewarded with flights, accommodation, and tickets to AWS re:Invent 2019 in Las Vegas
- 4. AWS re:Invent 2019 in Las Vegas (December 2 - December 6)**
 - a. The Final Hackathon champions will be rewarded with flights, accommodation, and tickets to AWS re:Invent 2019 in Las Vegas.

Are you ready? Form a team with your fellow friends and join us online. You can participate from any South-East Asian countries. aws.agorize.com

We cannot wait to have you onboard and hack for good!
